

# WHY BUY LOCAL?

How does it boost our economy?

1. Unemployment is one of the most persistent problems facing our country. Buying products made by Lebanese firms can help preserve and create jobs for our Lebanese families.
2. Buying local means becoming more self-sufficient and less dependent on imports.
3. When liras are spent locally, they can be re-spent locally thus raising the overall level of economic activity.

Take your first step today. When you go out to the market or the mall, purchase Lebanese-made products.

**A simple but impactful act!**
